ABOUT ME

Junior Developer with hands-on experience building modern web applications through maintainable code, collaborative development, and AI-assisted workflows.

CORE SKILLS

Languages – JavaScript, TypeScript
Database – SQLite, Postgres
ORM – Prisma, Drizzle

Frontend – React, Tailwind, shadcn/ui, daisyUI
Backend – Node.js, Express, NestJS
Tools – Git, VS Code, Gemini CLI, Codex IDE

PERSONAL PROJECTS

Email Makinator

Browser Extension

- Built an AI-assisted browser extension that supports email composition, refinement, and contextual replies.
- Implemented an initial Gmail integration with an extensible structure for future provider support.
- Integrated backend-assisted AI requests with response handling, validation, and error handling.

Resume Makinator

Resume Builder

- Built a browser-based AI resume builder with structured editing, section toggles, drag-and-drop ordering, local persistence, and live PDF preview.
- Implemented safe draft application with response validation, local data updates, JSON import/export, and client-side storage.
- Added an AI chat assistant that reviews resume content, provides section-specific advice, and proposes structured resume updates.

Nova

Restaurant POS System

- Built a Tauri-based POS desktop app for cashier and admin operations, currently in development.
- Implemented cashier workflows and role-based login to speed up transactions and shift handoffs.
- Used Codex to support implementation, iteration, and development workflows.

EXPERIENCE

Software Developer

November 2025 - Present

TerniLabs (GitHub Organization)

- Collaborate with a small independent team to build modern web and software projects.
- Contribute to web application features using modern JavaScript frameworks.
- Use GitHub workflows for branching, pull requests, code reviews, and feature iteration.

CERTIFICATES

- CS50x, CS50W; Responsive Web Design, Front End Libraries, Back End APIs (v8)
HarvardX, freeCodeCamp

SOFT SKILLS

• Attention to detail • Adaptability • Communication • Team Collaboration • Problem solving • Self-Learning

EDUCATION

Completed Classroom Instruction in BS Maritime Transportation

July 2018 - September 2021

Asian Institute of Maritime Studies
